

Our Scientific and R&D innovative Solutions For Sustainable Poultry Practices

India's top quality Poultry Inputs

An ISO Certified Company

GMP Certified Company

HACCP Certified Company

Poultry Products

ESSENSOL GOLD

Advanced formula of essential oils extract with Garlic

PRESENTATION: 1 Ltr

COMPOSITION :

Oregano oil Extract : 25%
(Carvacrol, Limonene, Terpinolene, Menthol)
Garlic Oil Extract : 25%

BENEFITS :

- Essensol Gold is an unique formulation of extracts of essential oils with garlic oil combined together having strong Anti-viral, anti-bacterial, anti-fungal properties.
- Essensol helps to maintain or improve egg production.
- Essensol Gold highly useful as a growth promoter and performance enhancer in poultry.
- Essensol Gold improves immunity and helps to enhance performance in Broilers, Layers and Breeders.
- Essensol Gold helps to secrete digestive Enzymes that helpful for the Digestion.

DOSAGE :

Poultry : 250 gm/ Ton of feed.
During Gastro intestinal infections : 500 gm/ for ton of feed (Or) as advised by a Poultry consultant.

GRO FAST-XL

An Advanced Formulation of Enzymes, Amino acids, Immunostimulants, Prebiotics with Probiotics for Enhancement of Production in Poultry

PRESENTATION: 1 Kg

CONTAINS :

Enzymes: Protease, Lipase, Hemicellulase, Amylase, Phytase and Xylanase.

Amino Acids: Leucine, Glycine, Valine, Threonine, Tryptophan and Arginine.

Immunostimulants: Beta-carotene, 1-3, 1-6 Beta-glucans.

Prebiotics: Fructooligosaccharides, Xylooligosaccharides, Lactulose.

Probiotics: Lactobacillus & Saccharomyces Species

BENEFITS:

- GRO FAST-XL Accelerates weight gain rate phenomenally.
- GRO FAST-XL Makes birds more resistant to diseases.
- GRO FAST-XL Helps to reduces FCR.
- GRO FAST-XL Reduces cost of production.
- GRO FAST-XL Helps to Keeps intestines free from lesions.
- GRO FAST-XL Improves digestion and digestive system.
- GRO FAST-XL Improves digestion and nutrient uptake leading to reduced FCR and cost of production.

DOSAGE :

Broilers: 1 kg per Metric Ton of feed.
(Or) as advised by a Poultry consultant.

ACTI-CHOLINE

Unique Combination of Natural Choline & Biotin

PRESENTATION: 1Kg, 5Kg, 10 Kg & 25 Kg

CONTAINS :

Natural Choline Source
Biotin

BENEFITS :

- Building and maintaining cell structures.
- Fat metabolism of the liver.
- Formation of acetylcholine (essential) and Methyl-group donor (non-essential) via betaine.
- Choline is essential for the synthesis of acetylcholine by mitochondria at the presynaptic terminal of the neural synapse, a substance that makes possible the transmission of nerve impulses.
- Optimizes growth.
- Feed Efficiency.
- Prevents Fatty Liver Syndrome and liver functions.
- Enhances fat metabolism.

DOSAGE :

500g/ton of Feed
(Or) as advised by a Poultry consultant.

BIOTOX (FS)

Biological Toxin Binder cum Growth Promoter

PRESENTATION: 1 Kg

CONTAINS:

Rhodococcus erythropolis
Pseudomonas fluorescens
Bacillus licheniformis
Lactobacillus rhamnosus
Bacillus subtilis
Saccharomyces cerevisiae

BENEFITS :

- BIOTOX is a special probiotic combination product for neutralizing of toxins.
- Helps to control the excess moisture in feed.
- Improves the immune status, production, and growth.
- Helps to maintain the nutritional value and increase the feed efficiency.
- High stability over PH range, Humidity, and Temperature.

DOSAGE/ SCHEDULE OF APPLICATION:

Routine use: 500 gm to 1kg/ton of feed (or) as Advised by a Poultry consultant.

ASCOR

Vitamin C Supplement to Improve Animal Immunity and Disease Resistance

PRESENTATION: 1 Kg

CONTAINS:
Ascorbic Acid
Natural Vitamin Sources

BENEFITS :

- ASCOR works as an excellent antioxidant and protects the animal cells from free Radicals.
- ASCOR improves animal immunity to some infectious and contagious diseases and as well as reduces the stress under severe disease and unfavorable environmental conditions.
- ASCOR is most suitable to control blood loss in the following conditions (Coccidiosis, Debeaking, Hemorrhagic ulcers in the intestines, Necrotic enteritis and Infectious bursal disease).
- ASCOR involves in collagen biosynthesis to strengthen the bones, muscles, skin, and tendons.
- ASCOR Combats the Effects of Heat-Stress, Cold-stress and Disease Stress Factors.

DOSAGE/METHOD OF APPLICATION:

Chicks & Growers: 5-6g/100 birds/day 7-10 days During Coccidiosis and IBD conditions: 20g/100 birds/day 7-10 days (Or) as advised by a Poultry consultant.

REDOX

Mould Inhibitor, Mould Killer and Liquid Toxin Binder for Poultry

PRESENTATION: 1 Ltr

CONTAINS:

Organic Acids
Minerals
Choline Chloride

BENEFITS :

- Helps to control the excess moisture in feed.
- Traps the toxins but not minerals and vitamins.
- Improves the immune status, production, and growth.
- Helps to maintain the nutritional value.
- Increase feed efficiency.
- Uniformly and rapidly disperses in the feed while mixing.
- Mycotoxin Binder for Animals is Made of High-Quality Vitamins and Supplements.
- Useful in Rumen Dysfunction and Damage Liver due to Mycotoxins.
- Result and Quality Oriented Cattle Feed Supplement and Poultry Feed Supplement.

DOSAGE/FEEDING SCHEDULE :

Poultry (Preventive)
0.5 ml per Ltr. For 3-5 days
Curative - 1 ml per Ltr. For 5-7 days
(Or) as advised by a Poultry consultant.

CRDNIL

Herbal Extracts for great relief of Asthma and Cough

PRESENTATION: 1 Kg

CONTAINS:

Eucalyptus globules
Mentha piperita
Cinnamomum camphora
Ginger officinalis
Syzygium aromaticum

BENEFITS :

- It Controls the Chronic Respiratory related Diseases (CRD).
- It provides the big relief to respiratory system and improves the oxygen intake.
- It acts like an antioxidant agent and improves the animal immunity against pathogenic Microorganisms.

DOSAGE/METHOD OF APPLICATION:

During stress/Mild Infections: 250g - 500g/Metric ton of feed 5 to 10ml per 1-2 L water(or) as advised by a Poultry consultant.

ELECTROL -WS

Protects the animals from the Dehydration, Anxiety and Stress

PRESENTATION: 1 Kg

CONTAINS:

Calcium Glaciate
Sodium Chloride
Elemental sodium
Calcium Lactate
Magnesium Sulphate
Elemental potassium
Sodium Bicarbonate
Sodium Citrate
Ascorbic acid
Potassium chloride

BENEFITS :

- ELECTROL-WS protects the animals from the dehydration, anxiety and stress by balancing of all body parameters.
- Supplementation of ELECTROL-WS keeps the animal system in active condition and helps in rapid growth.
- ELECTROL-WS improves the appetite and nutrient absorption rate.
- Maintenance of fluid balance by adjusting the volume of water intake, mainly by drinking more or less fluid.
- Promotion of neuromuscular function by helping in transmission of nerve impulse, establishing resting membrane potential, action potentials in nervous and muscle tissue.
- Regulation of acid-base balance by maintaining the blood pH in a range of 7.35-7.45.

DOSAGE/METHOD OF APPLICATION

1 Kg Mixed in each MT of Prepared (Or) as advised by a Poultry consultant.

Furaz 25

A Special Furazolidone Remedy to Control Mild Infections

PRESENTATION: : 1 Kg

CONTAINS:

Furazolidone

BENEFITS :

- FURAZ-25 effectively controls the pathogenic Micro-organisms in animal gut and helps in maintaining of gut health.
- FURAZ-25 prevents the infections caused by Bacterial, Fungal and Protozoan parasites.
- Feed supplementation of FURAZ-25 controls the loose droppings enteritis and culls formations in animal.
- FURAZ-25 improves the egg production in layers and weight gain broilers.

DOSAGE/METHOD OF APPLICATION :

Prevention: 250-300 G/ton of feed - Apply for 5-7 days.
Treatment: 600-1000 G/ton of feed - 7-10 days or as advised by a Poultry consultant.

Poultry Products

PHYTEZ

Phytase Enzyme to improve the feed efficiency rate

PRESENTATION: 1 Kg

CONTAINS:
Phytase: 5000 IU

BENEFITS :

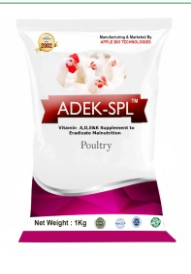

- PHYTEZ can reduce the anti nutritional effect of phytate and improves the digestibility of phosphorus (P), Calcium, Zinc, Magnesium, amino acids and energy.
- Feed supplementation of PHYTEZ breakdown macromolecules to bio available simple nutrients.
- PHYTEZ enhances the feed intake rate, nutrient utility and improves the weight gain in short period.
- PHYTEZ minimizes the ammonia formation in animal gut and improves the manure quality.
- Regular supplementation of PHYTEZ maintains constant animal health, activeness through providing of easy bio available nutrients.

DOSAGE/METHOD OF APPLICATION

Poultry feed: 100-150 g/ton of feed, continuously (or) as advised by a poultry consultant.

ADEK-SPL

Vitamin A,D,E & K Supplement to Eradicate Malnutrition

PRESENTATION: 1 Kg

CONTAINS :
Vitamin A
Vitamin D3
Vitamin E
Vitamin K
Vitamin B12

BENEFITS:

- Regular supplementation of **ADEK-SPL** corrects all the diseases related to Vitamin deficiency.
- **ADEK-SPL** provides disease resistance against various diseases causing pathogenic Microorganisms.
- **ADEK-SPL** reduces the animal running mortalities and improves the animal survival under various conditions also.
- **ADEK-SPL** enhances the animal health and activeness.

DOSAGE :

Broiler, Layer, Breeder:
1-2 gm/L of drinking water – 5-7 days
(or) as advised by a Poultry consultant.

ACTI-FERROL

Malt-Based Liquid Iron Supplement for Poultry

PRESENTATION: 1 Ltr

CONTAINS :

Malt Extract
Calcium Gluconate
Ferric Ammonium Citrate
Copper Sulphate
Cobalt Chloride

Cholecalciferol
Niacinamide
Biotin
Folic Acid
Cyanocobalamin

BENEFITS :

- Anaemia, General debility, Stunted growth, Iron deficiency, Rickets & Osteomalacia, Anorexia.
- Lactation stress, Egg breakage, Supportive therapy during diseases etc.ns.

Recommended usage:

Layers : 10-20 ml per 100 birds daily
Broilers & Breeders : 20-30 ml per 100 birds daily
as Advised by a Poultry consultant.

GUTLACT

Lactobacillus Strains to Improve Gut Health and Nutrient Absorption

PRESENTATION: 1 Kg

CONTAINS:
500 Billions cfu/100g
Lactobacillus acidophilus,
Lactobacillus brevis,
Lactobacillus bulgaricus,
Lactobacillus casei,
Lactobacillus delbrueckii,
Lactobacillus fermentum,
Lactobacillus halveticus,
Lactobacillus plantarum,
Lactobacillus rhamnosus
bifidobacterium bifidum,
Bacillus licheniformis.

BENEFITS :

- GUTLACT maintains gut health, enhances enzymatic mediated feed digestion, improves FCR and survival rate.
- GUTLACT helps to gain more body weight in broilers as well as helps to yield more eggs in layers.
- GUTLACT Prevents microbial disease outbreaks and reduces loose droppings.
- GUTLACT improves litter quality with low levels of nitrogen and ammonia.

DOSAGE:

500 gm/ton of feed (or) as advised by a Poultry consultant.

OVITONE

Improves Egg Production

PRESENTATION: 1 Kg

CONTAINS:

Withania somnifera,
Allium sativum
Pusatilla nigricans
Solanum nigrum
Mentha globus
Cimicifuga racemosa
Cinnamomum
Cinnamomum zeylanicum
Zingiber officinale

BENEFITS :

- OVITONE increases the utilization of the limit-fed diet and improve egg production.
- OVITONE improves the egg production rate, egg weight and egg mass output.
- Dietary supplementation of OVITONE increases of laying rate.
- Reduces possibility of egg shell cracking
- Improve settable egg percentage in breeders.
- It controls the animal gut infection, pathogenic load and increase the nutrient absorption rate.

DOSAGE/SCHEDULE/METHOD OF APPLICATION

OVITONE should be given 10 days in a month
During drop in production give for 21 days
Feed: 200g/ton of feed (or) as advised by a Poultry consultant.

VITATUNE

Vitamin & Amino acid Supplement for Best growth performance

PRESENTATION: 1 Kg

CONTAINS:
Vitamin A
Vitamin D3
Vitamin E
Vitamin C
Pyridoxine
Riboflavin
Thiamine
Dexpanthenol
Vitamin B12

Methionine
Choline
Lysine
Histidine
Arginine
Aspartic acid
Threonine
Serine
Glutamic acid
Proline
Glycine
Alanine
Cystine
Valine
Leucine
Isoleucine
Tyrosine
Phenylalanine
Tryptophane
Biotin
Inositol

BENEFITS :

- Regular Supplementation of VITATUNE improves the appetite, digestion.
- It Promotes the nerve and brain function and keeps the animal in active condition.
- It Promotes the broilers animal body weight through the strengthening of muscle and bones.
- It improves the total performance breeders including hatchability and fertility.
- Enhances production of hormones, RBC cells and quality eggs, it effectively prevents the infections thus helps in maintenance of good health.

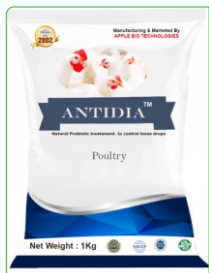

DOSAGE/SCHEDULE OF APPLICATION:

Per ton of Feed:
Layers: 250g - 300g,
Broilers: 300g - 400g
Breeders: 400g-500g (or) as advised by a veterinarian.

ANTIDIA

Natural Probiotic Treatment to Control Loose drops

PRESENTATION: 1 Kg

CONTAINS:
200 Billions CFU /100 g
Saccharomyces species
Bifidobacterium species
Lactobacillus species

INDICATIONS/BENEFITS:

- ANTIDIA Modify of the intestinal Microbiota and Stimulation of the Immune system.
- ANTIDIA Reduces inflammatory reactions and decrease in ammonia and urea excretion.
- ANTIDIA helps in colonization of animal gastro intestinal tract and controls the Pathogenic microorganisms such as E. coli and Salmonella etc., which are responsible for Diarrhea disease.
- ANTIDIA Produces secondary molecules which show anti-inflammatory properties thus helps in controlling of inflammatory bowel disease or irritable bowel syndrome.

DOSAGE/METHOD OF APPLICATION:

250-500 gm/metric ton of feed
Breeders: 500 gm/metric ton of feed
(or) as advised by a Poultry consultant.

COCCICON

An effective compound to Control Coccidia

PRESENTATION: 1 Kg

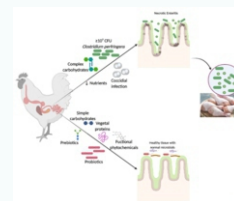

CONTAINS:
Maduramicin

INDICATIONS :

- It is very effectively prevent the growth of coccidia (i.e. Sporozoites, Trophozoites & Schizonts.)
- It is a safe and secure compound to control the Coccidia parasites at all stages.
- It boosts up the animal growth by controlling of Coccidia.

DOSAGE/METHOD OF APPLICATION

Layers : 500 gms. per ton of feed 1st day to 14 weeks.
Broilers : 500 gms. per ton of feed from 1st day to Before 1st week of marketing (or) as advised by a poultry consultant.

E-SEL

Selenium Supplement for Better Immunity & Egg Production

PRESENTATION: : 1 Kg

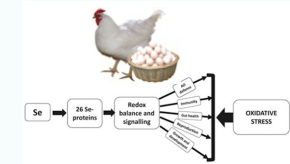

CONTAINS:
Vitamin E
Selenium
Biotin
Folic acid

BENEFITS :

- Advantages of organic Se in the broiler diet include increased Se transfer to the muscles and the build-up of Se reserves in the body, which is expected to result in improved chicken resistance to various stresses and to have a positive effect on immunity, gut health, and meat quality.
- E-SEL Strengthens the immune system and reduces the disease outbreaks.
- E-SEL Improves the fertility power and hatchability in animals.
- E-SEL Reduces the animal stress and improves growth.
- Supplementation of E-SEL controls the mortality rate and maximizes the egg production in layers and meat production in broilers.

DOSAGE/METHOD OF APPLICATION :

100-200 G/Ton of feed (or) as advised by a poultry consultant.

Poultry Products

ENZOMAX

Enzyme Mixture to promote for better feed digestion

PRESENTATION: 1 Kg

CONTAINS :

Xylanase
Pectinase
Cellulase
Phytase
Protease
Amylase
Beta Glucanase
Lipase

BENEFITS:

- Feed supplementation of ENZOMAX involves in breakdown of macro nutrients (starch, proteins, lipids and cholesterol) to bio available simple nutrients (glucose, amino acids and fatty acids).
- ENZOMAX enhances the feed intake rate, nutrient utility and improves the weight gain in short period.
- ENZOMAX minimizes the ammonia formation in animal gut and improves the manure quality.
- Regular supplementation of ENZOMAX maintains constant animal health, activeness through providing of easy bio-available nutrients.

DOSAGE :
Poultry feed: 500 gm/ton of feed, continuously (or) as advised by a poultry Consultant.

MICRONIL

A Versatile Cleaning Microbial Disinfectant Agent

PRESENTATION: 1 L, 5 L & 20 L

CONTAINS :

Benzalkonium Chloride
Glutaraldehyde solution
Propylgallate
Butylated hydroxyanisole

BENEFITS :

- It shows multiple disinfecting activities towards in killing of surfaces of floor, walls and scales of deposits.
- It kills and removes the pathogenic microbial spore's bio-films from surface areas of contaminated spots.

DOSAGE/ SCHEDULE OF APPLICATION:

Pre Cleaning of Poultry farms : 5 ml per 1 L
for floor mopping: 10ml/1 Ltr
(or) as advised by a Poultry consultant.

ACTI-YEAST

ANIMAL HEALTH ENHANCER

PRESENTATION: 1 Kg

CONTAINS:

(Each 5 BillionCFU/G)

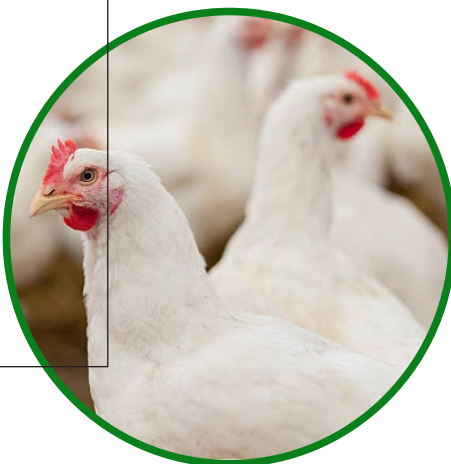

Saccharomyces boulardii
Saccharomyces cerevisiae
Yeast Cell Wall Extract

BENEFITS :

- Reduce pathogenic load of E.coli, Salmonella, C.perfringens, etc.
- Induces gut eubiosis
- Neutralizes bacterial endotoxins
- Stimulates gut immunity
- Improves FCR, enhances production efficiency

Dosage/Schedule/Method of Application

Commercial Broiler	Pre-Starter-500g/Ton Feed	Starter-1000g/Ton Feed	Finisher-1000g/Ton Feed
Commercial Layer	Chick-500g/Ton Feed	Grower- 1000g/Ton Feed	Layer-500g/Ton Feed
Breeder	Chick-500g/Ton Feed	Grower- 1000g/Ton Feed	Layer-500g/Ton Feed

Manufactured & Marketed by:

APPLE BIO TECHNOLOGIES

141/B, Road No. 14,

IDA Mallapur, Hyderabad - 500 076.
